# Chandrakant Patil

Belagavi, Karnataka — +91 8123249138 — chandrakantpatil08112006@gmail.com — LinkedIn — GitHub — LeetCode

## Professional Summary

Computer Science undergraduate specializing in Artificial Intelligence and Machine Learning at Gogte Institute of Technology, with a strong foundation in Data Structures and Algorithms, object-oriented programming, and software development. Experienced in building full-stack web applications using React.js, Node.js, Express.js, and databases. Solved 250+ LeetCode problems, demonstrating consistent problem-solving practice, and eager to contribute to scalable software solutions as an SDE Intern.

## Education

**Gogte Institute of Technology, Belagavi, Karnataka** 2024 – 2028
Bachelor of Engineering in Computer Science, AIML **CGPA: 9.39**

**KLE's G I Bagewadi College, Nippani** 2024
XII (State Board) **95.8%**

**S S (K) Patil English Medium School, Sankeshwar** 2022
X (State Board) **97.7%**

## Technical Skills

- **Programming Languages:** C, C++, Python, JavaScript, SQL
- **Web Development:** HTML, CSS, React.js, Node.js, Express.js
- **Databases:** MySQL, MongoDB
- **AI/ML & Data Science:** Machine Learning, NumPy, Pandas, Matplotlib
- **Tools:** Git, GitHub, VS Code, Postman, Jupyter Notebook, Google Colab
- **Core Concepts:** Data Structures & Algorithms, OOP, REST APIs, Problem Solving, CN, DBMS

## Projects

**ProjectForge — Developer Collaboration Platform**
*Tech Stack: React.js, Redux Toolkit, Node.js, Express.js, MongoDB, Tailwind CSS*

- Developing a full-stack platform where developers can publish project ideas, discover relevant projects, and connect with collaborators based on required skills.
- Implemented authentication workflows, protected routes, user profiles, and dashboard functionality to support secure, user-specific experiences.
- Building project application workflows that enable users to apply to projects and track application statuses.
- Structured frontend state management using Redux Toolkit and implemented form handling and validation using React Hook Form and Zod.
- Designed a modular application architecture with separate frontend and backend components to support maintainability and future feature expansion.

**Gesture-Controlled Mouse**
*Tech Stack: Python, OpenCV, MediaPipe*

- Developed a gesture-controlled mouse system using OpenCV and MediaPipe, processing real-time video input to translate hand gestures into cursor actions with low latency.
- Designed efficient tracking and gesture-recognition logic to ensure responsive, real-time user interaction.

## Achievements

- **Runner-Up, TECHNOTSAV 2K26 National-Level Webathon** — D. Y. Patil College of Engineering and Technology, Kolhapur; competed among 70+ teams.
- **Problem Solving:** Solved 250+ LeetCode problems using Data Structures & Algorithms in C++.
- **Technical Head, AAIE:** Lead technical initiatives, workshops, and AI/ML activities for the Association of Artificial Intelligence Engineers.

## Certifications

- Anthropic AI Fluency
- Google AI Professional Certificate — Coursera
- API Testing Using REST Assured — Coursera
- IBM Full Stack using JS Professional Certificate — Coursera
